## Disclaimer

Track Rail Solutions is in no way associated with or endorsed by Sonos Inc. Sonos and all Sonos product names, logos, and symbols are registered trademarks of Sonos Inc. Any use of the Sonos brand in our product descriptions is solely for the identification of Sonos Inc. products.

The Pontis Second Generation 3-Phase Audio Adapter is a product of Track Rail Solutions and is designed to work with Sonos speakers. However, Track Rail Solutions is not responsible for any damage or issues that may arise from the improper use of the Pontis Second Generation 3-Phase Audio Adapter.

Users of the Pontis Second Generation 3-Phase Audio Adapter are responsible for correctly installing and using the product according to the provided instructions. Any damage to the Sonos speaker resulting from incorrect installation or use of the Pontis Second Generation 3-Phase Audio Adapter may not be covered by Sonos' warranty. Track Rail Solutions is in no way associated with or endorsed by Powergear, Global, Etrack, Ivela, or any other brand of 3-Phase Rails. Any use of these brands in our product descriptions is solely intended for the identification of their respective products.

The Pontis Second Generation 3-Phase Audio Adapter is a product of Track Rail Solutions and is designed to be mounted on various brands of 3-Phase Rails. However, Track Rail Solutions is not responsible for any damage or issues that may arise from the improper use of the Pontis Second Generation 3-Phase Audio Adapter.

Users of the Pontis Second Generation 3-Phase Audio Adapter are responsible for correctly installing and using the product according to the provided instructions. Track Rail Solutions assumes that the 3-Phase Rail is properly and safely mounted to the ceiling. Any damage to the Sonos products, the Pontis Second Generation 3-Phase Audio Adapter, or the 3-Phase Rails resulting from incorrect installation or use, or from the 3-Phase Rail not being properly mounted to the ceiling, may not be covered by the warranty of the respective brand.

Track Rail Solutions strongly recommends that all customers thoroughly review the disclaimers and usage instructions of both the Sonos products and the 3-Phase Rail products. By using the Pontis Second Generation 3-Phase Audio Adapter, the customer acknowledges that they have read and understood the disclaimers and usage instructions of the relevant products.

Track Rail Solutions is not liable for any damages or injuries that may result from improper or hazardous use of the products in question or from incorrectly assembling these products. The customer is solely responsible for the correct and safe use and proper and safe assembly of all the products in question.

Electrical safety is of utmost importance when using the Pontis Second Generation 3-Phase Audio Adapter and the Sonos products. Users should never use these products if the power cable, plug, or the product itself is damaged or shows signs of defect. Using them under such circumstances can result in further damage to the product, potential electric shock, fire, or other injury.

The Pontis Second Generation 3-Phase Audio Adapter is intended for use in a safe environment. Exposure to extreme temperatures, water, or other liquids may damage the product and affect its performance. Track Rail Solutions is not liable for any damage or injury resulting from the use of the products in violation of these safety guidelines. By using the Pontis Second Generation 3-Phase Audio Adapter and the Sonos products, the customer acknowledges the responsibility to adhere to

these safety guidelines. By using the Pontis Second Generation 3-Phase Audio Adapter, the customer acknowledges that they are responsible for selecting a suitable, safe location for the product and for carefully following all installation and usage instructions. The maintenance of both the Pontis Second Generation 3-Phase Audio Adapter and the Sonos products should be done in a correct and safe manner. Both products should only be cleaned with a dry cloth. The use of abrasive cleaners, solvents, or any other potentially harmful cleaning products is strictly prohibited and may cause damage to the products.

Track Rail Solutions is not liable for any damage or issues that may arise from the use of improper cleaning methods or products. By using the Pontis Second Generation 3-Phase Audio Adapter and the Sonos products, the customer acknowledges the responsibility for correctly and safely maintaining the products according to these instructions.

The Pontis Second Generation 3-Phase Audio Adapter is protected by patent WO2023009006A1, issued by Octrooibureau Los En Stigter BV. Any unauthorized use or copying of this product is strictly prohibited.
