## A1121 RETROFIT

## IP ACCESS CONTROL DEVICE

For retrofit installations with existing front panel Keypad • 125 KHz and 13.56 MHz RFID Reader • Bluetooth Transceiver

The DoorBird A1121 is a compact, IP-based multi-technology access control system that can also be installed as a stand-alone solution. It enables secure access control in areas where the installation of an IP video door station is not possible or desired, e.g. at back and side doors, garages and underground garages, storage and packing rooms or bicycle and machine rooms. It can also control elevators. The keypad is illuminated, so you can install the device even in an unlit environment.

Thanks to its compact shape, the device can be easily installed on a door frame. The access control device is also ideal if you wish to create one-time or temporary access codes for visitors.

The device is designed for indoor and outdoor installation. The retrofit version is available for existing front panels. Our front panel is made of solid 3 mm (0.12 in) brushed stainless steel. All buttons are backlit.

The DoorBird A1121 can be connected to the network via WLAN or LAN cable. If connected using a network cable, the device can be powered via Power over Ethernet (PoE). Should the Internet temporarily fail, all functions continue to operate within the local network.

The DoorBird A1121 combines the functions of four separate access control devices:

Keypad

Bluetooth®

125 KHz RFID Reader 13.56 MHz RFID Reader

Apart from the network connection and power supply (PoE or 15 VDC), no further hardware is required. The software for the IP access control solution runs within the device.

The DoorBird A1121 is equipped with two relays and has a configurable Wiegand output interface for integration into an existing access control or alarm system.

Using HTTP(S) calls, you can also integrate the device with third-party home and building automation systems.

All settings can be configured remotely using the free DoorBird app or our web-based administration tool: <a href="https://webadmin.doorbird.com">https://webadmin.doorbird.com</a>

You can define individual schedules, validities and actions for each PIN code, RFID transponder, etc. By pairing the DoorBird IP access control device with our DoorBird IP I/O Door Controller A1081, up to three additional gates, doors or elevators can be controlled in a tamperproof way, even if they are not located near the device.

The integrated tamper sensor can detect that the device is being removed and, for example, send a push message as an alarm in real time.

## QUALITY MADE IN GERMANY

All DoorBird products are designed, developed and produced by Bird Home Automation Group in Berlin, Germany. We manufacture all products with the greatest care and precision, and deliver them to our customers all over the world.

## **TECHNICAL SPECIFICATIONS**

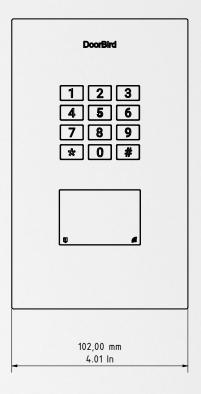

GENERAL		125 KHZ RFID READE	R
Front panel	3 mm (0.12 in)	Туре	Active Reader Passive Tag (ARPT) system
	Available in brushed stainless steel V2A / V4A	Standard	ISO/IEC 18000-2:2009 Part 2, EM4100, EM410
Mounting type	Retrofit Version. Surface-mounted and flush-mounted version sold separately	Frequency	125 KHz
		Range	0 - 3 cm, depends on environment
Stromversorgung	15 - 48 V DC (max. 15 W) oder Power over Ethernet (PoE 802.3af Mode-A)	Compatible Transponder	RFID key fobs, sold separately, see www.doorbird.com/buy Up to 500 transponders manageable
Keypad Modul	<ul> <li>12 Tasten, beleuchtet, konfigurierbar per App, z.B.</li> <li>Individuelle PIN Codes</li> <li>Individuelle Events (z.B. Relais schalten, HTTP(s) Aufruf)</li> <li>Individuelle Zeitpläne</li> <li>Es können bis zu 500 PIN Codes verwaltet</li> </ul>	Configuration  13.56 MHZ RFID READ	Via App, e.g.  • Tag (add, delete)  • Individual events (e.g. switch a relay, HTTP(s) notification)  • Individual schedules
	werden		
Manpulationsensor	Integrated	Type	Active Reader Passive Tag (ARPT) system  UID (CSN) of: MIFARE Classic®, MIFARE
Weight	515 g  • LAN/PoE (T+, T-, R+, R-) • 2 x Bistable latching relay (potential-free), max. 1-24 V DC/AC, 1 A, e.g. for electric door opener	Standard	DESFire® EV1 and EV2, ISO14443A, ISO14443 ISO15693, NFC® (HCE support required)
		Frequency	13.56 MHz
		Range	0 - 3 cm, depends on environment
Worth owners of	• 15 - 48 V DC input (+, -), max. 15 W • Wiegand	Compatible Transponder	RFID key fobs, sold separately, see www.doorbird.com/buy
Weatherproof	Yes, IP65  IP65. CE. FCC. IC. RoHS. REACH. IEC/EN 62368		Up to 500 transponders manageable
Approvals  Dimensions	168 x 102 x 28 mm (H x W x D) 6.61 x 4.01 x 1.10 in (H x W x D)	Configuration	Via App, e.g.  Transponder (add, delete)  Individual events (e.g. switch a relay, HTTP(s) notification)  Individual schedule
Operating conditions	-25 to +55°C / -13 to 131°F Humidity 10 to 85 % RH (non-condensing) WIEGAND INT		
		WIEGAND INTERFACE	
Scope of delivery	1x Main Electrical Unit 1x Front panel 1x Power supply unit (mains adaptor) with 4 country-specific outlet adaptors (110 - 240 V AC to 15 V DC) 1x Quickstart guide with Digital Passport 1x Installation manual 1x Small parts	Direction	Output
		Supported protocols	26, 30, 31, 34, and 44 bit
		Supported data output	125 MHz RFID transponder, 13.56 MHz RFID transponder, Keypad PIN codes
		Maximum distance to controller (cable length)	18 AWG: Max. 500 ft. (150m) 20 AWG: Max. 300 ft. (90m) 22 AWG: Max. 200 ft. (60m)
Warranty	Siehe www.doorbird.com/warranty		When no data is being sent, both DATA0 and
CURRENT SYSTEM REQUIREMENTS		Voltage	DATA1 are pulled up to the "high" voltage leve +5 V DC. The interface is galvanically isolated.
System requirements	Mobile device: Newest iOS on iPhone/iPad, newest Android on Smartphone/Tablet	INTEGRATED WIRELESS MODULES	
		WiFi	2.4 GHz
	Internet: High-Speed Landline Broadband Internet connection, DSL, cable or fiber optic, no socks or proxy server	RFID	125 KHz 13.56 MHz (Configuration: either-or)
AUDIO	Network: Ethernet Network, with DHCP	Bluetooth	Bluetooth Low Energy (BLE), enabled with future firmware and App update
AUDIO		THIRD-PARTY INTEGE	RATION (DOORBIRD CONNECT)
Audio components	Piezzo, for system messages	Partner integrations	see www.doorbird.com/connect
NETWORK		API	see www.doorbird.com/api
Ethernet	RJ45 jack, PoE 802.3af Mode-A, 10/100 Base-T		
WiFi	2.4 GHz b/g/n	OPTIONAL ACCESSOR	<u>.</u>
Supported protocols	HTTP, HTTPS, SSL/TLS, Bonjour, DNS, RTSP, RTP, TCP, UDP, RTCP, ICMP, DHCP, ARP, SIP, DTMF	Sold separately	see www.doorbird.com/buy

Special remarks:

Assembly requires professional skills or a technician.

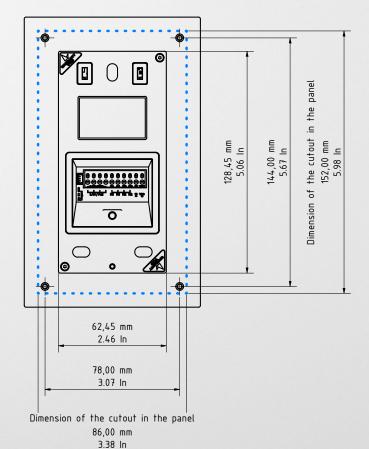

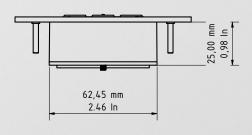

Front panel material thickness: 3.0 mm (0.12 in)
